Who is afraid of DCC?  
What is DCC?, What is not DCC?  
Applicability Scale of DCC, versus DC, versus Battery  
Track basics, Track laying basics  
DCC components, Detail example of DCC implementation  
Questions

**12:30 – 1:30**

**Lewis Polk of Aristo Craft Trains**

"The Evolution of the Revolution"

**1:45 – 2:45**

**Andy Stobie**

Revolution Receiver and Smoke Board Installations in non-PNP Locos

A show-and-tell session with Andy's method to convert your non-PNP locos to use the Revolution receiver and smoke control boards. Includes photos of his process, the handy wiring connection devices he uses, and his actual locos on display to see the final result (Aristo RS3, FA and FB units, U25B, and one non-Aristo loco).

**Seminars for Fall 2011**  
**East Coast Large Scale Train Show**

**SATURDAY**

**10:00 – 11:00**

**Lewis Polk of Aristo Craft Trains**

"The Evolution of the Revolution"

**11:15 – 12:15**

**Mohammed BemDebba of All about LGB**

**ALL ABOUT LGB TELLS ALL ABOUT MASSOTH DCC**

For over 37 years, Massoth has been LGB's electronics partner. In 1974, the company's founder collaborated with LGB to produce the first sound system for a G-scale locomotive. Cooperation between Massoth and LGB continues.

Fine German engineering, state-of-art technology, and high-end German manufacturing are hallmarks of the company's products. We are delighted to be a factory authorized dealer for Massoth, we want to be your #1 source for Massoth products.

In this seminar, we want to introduce ourselves, and introduce you to the entire range of Massoth DCC products.

**12:30 – 1:30**

**Rick Isard of Cordless Renovations**

New RCS RailLinx Hand Controller.
